# SYSPRO – Software You Can Count On

## Reliability

Every day hundreds of CFOs and CPAs, and their customers on six continents, rely on SYSPRO for information, functionality and technology. Since 1978, SYSPRO has successfully delivered superior business solutions for thousands of mid-size manufacturers and distributors across the world. The preparation of financials is critical to understanding a business. From the outset, SYSPRO has not only delivered core operational functionality, but has developed the financial audit trails required by CFOs and CPAs, along with the ability to generate the necessary financial statements and information in the formats required. SYSPRO also includes many features that assist with governance alighment, risk managment and compliant adherence. Companies that partner with SYSPRO software can count on long-term relationships of ongoing creative and strategic collaboration.

## One Solution

SYSPRO enterprise software is an integrated business accounting system that meets the needs of today's modern distribution and manufacturing companies. SYSPRO provides: Enterprise Resource Planning (ERP), Enterprise Performance Management (EPM), E-Commerce, Customer Relationship Management (CRM) and Factory Planning & Scheduling.  The real-time, integrated approach makes SYSPRO a firm foundation upon which to facilitate better decision making at all levels, paving the way to sustainable business success.

SYSPRO excels in all businesses whether the focus is purely financial, distribution or manufacturing or a combination. The flexible nature of the SYSPRO software allows companies to use what they need today to be successful and to expand their usage of the software as their business evolves.

## ERP - Business and Financial Software

Many Enterprise Resource Planning (ERP) software products are strong in the areas of accounting, manufacturing or distribution, but only SYSPRO excels at all three.  CPAs are faced with making software decisions on a daily basis.  As companies outgrow the functionality of off-the-shelf packages or legacy systems, they need an easy-to-use, state-of-the-art solution that has the features and flexibility required specifically by manufacturers and distributors.

### Financials

SYSPRO delivers powerful fiscal control and insight into operations and adheres to exacting standards, including IFRS, FASB and XBRL. The integrated SYSPRO solution provides drill down from financials to source transactions. SYSPRO delivers visibility to management and customers in real-time on the desktop, on the intranet or on the web.

### Distribution

SYSPRO supports your distribution customers by providing 24/7, 360 degree order and inventory visibility, serial number and lot tracking, inventory optimization, total order fulfillment, effective sales analysis and customer service throughout the supply chain.

### Manufacturing

SYSPRO has the functionality and tools for manufacturing companies to effectively manage their inventory and production orders, track job costs, monitor variances and continually meet customer demand. SYSPRO enables real-time finite production scheduling and shop floor control and facilitates engineer-to-order, assemble-to-order, made-to-order  and mixed mode operations. Whether it is ISO, FDA, or Lean you are aiming for, SYSPRO has the features to help you meet these operational goals.

### E-Commerce

In order to be successful, demanding companies need to be able to extend beyond the boundaries of their business and supply chains. SYSPRO provides the technology foundation that makes collaborating with customers and suppliers simple with an out-of-the-box web solution, an easy-to-customize e-commerce solution and an automated method of delivering documents electronically.  Using Microsoft.NET technology, the SYSPRO business logic is available to facilitate effective integration with third party products or customized programming needs. Your technology advice today affects the payback and long term ROI associated with leveraging accounting software.

### CRM

SYSPRO CRM delivers  a 360 degree view of every customer interaction and relationship within an enterprise. SYSPRO CRM, an integrated extension of the SYSPRO accounting system, enables companies to manage customers, customer service incidents, sales opportunities, marketing campaigns, internal resources and suppliers within a single CRM/SRM environment.

# Enterprise Performance Management

SYSPRO incorporates a numbers of Enterprise Performance Management solutions that allow business users to carry out the planning, monitoring and analysis functions that they need to ensure Key Performance Indicators (KPIs) and performance goals can be achieved. SYSPRO EPM solutions include:

### ❖ Executive Dashboards

SYSPRO Executive Dashboards allows businesses access to a visual presentation of the real-time data in their ERP solution. It provides executives with the business process management and what-if analysis tools to leverage strategic advantage off their investment in ERP.

### ❖ Cash flow reporting and forecasting

The SYSPRO Cash flow forecast allows managers to view the company's projected cash position into the future by applying outstanding cash requirements, payment projections, and other Cash Projections to the current Bank Balances

### ❖ Business Analytics

Companies need to be able to identify business and industry trends and make informed decisions based on accurate and comprehensive data. SYSPRO Analytics provides customizable standard KPIs, allowing users to analyze, compare and decide, by slicing and dicing historical and current data in real-time. SYSPRO delivers true business intelligence that can provide immediate returns.

### ❖ Boardroom Quality Reporting

SYSPRO Reporting Services (SRS) produces standard and custom high quality reports, together with visual analysis capabilities. SRS uses Crystal Reports 2008 which provides flexibility for designing reports to almost any requirement, and provides the convenience of scheduling reports with automatic delivery to specified recipients. Reports can automatically be archived for immediate retrieval at any point in time.

The system also includes a specialized financial report writer that caters to single entities as well as multi-divisional reporting and comparative analysis designed for accounting professionals. SYSPRO supports complex accounting standards, including International Financial Reporting Standards (IFRS), ensuring the reliability and transparency of your financial reporting.

# Business Process Management and Modeling

Increasing organizational complexity necessitates the employment of tools to manage the design and communication of business processes, as well as the administration of the systems used to execute these processes.

❖ SYSPRO Workflow Services (SWS) enables you to streamline end-to-end business process activities within SYSPRO, as well as to create efficient interactions between SYSPRO and external touch points.

❖ SYSPRO Enterprise Analysis and Modeling (SEAM) is a powerful on-line toolset that enables the alignment of the SYSPRO ERP system with your organizational realities. SEAM included a set of baseline business processes and role definitions that serve to guide the on-line modeling, and definition of the blueprints of your business processes, structures and KPIs.

❖ SYSPRO's Role Management streamlines complex system administration tasks with centralized management of security, eSignature-authentication and the user interface for SYSPRO companies, groups and operators at the role level.

## Simplicity

"Simplifying your Success" is the SYSPRO goal. We want to make it simple to utilize and leverage the SYSPRO accounting and business systems. Designed with the familiar Microsoft Office look and feel, SYSPRO is readily accepted and embraced by users familiar with the Windows environment. The intuitive layout and easy personalization features improve productivity and enhance the user experience. SYSPRO continually extends features and functionality that turn complicated business processes into simple routine steps.

## Award-Winning

Over the years, SYSPRO financials have been commended in many of the most influential international accounting software reviews, including: CFO Magazine, PC Magazine, CTS, K2 Enterprises and CPA Technology Advisor. SYSPRO software has also been certified by the Accounting Library, which provides the tools for effective and confident software selection.

**SYSPRO**™

SYSPRO understands your needs and your business. When facilitating the selection of ERP and accounting software, you must choose a company that is innovative, responsive and personal, and you must select a product that has the functionality and flexibility to exceed business requirements and expectations, today and tomorrow. SYSPRO is that company, and SYSPRO is that product. We have the know-how and the savvy to collaborate and work with you to meet your professional needs.
